WHAT WOULD I DO WITHOUT MY MUSIC?

Sometimes I stumble home at night discouraged
Draggin' my battered dreams behind
Won'drin' if the battle's worth the fightin'
And why so many people's eyes are blind

But as I disappear into my music
And the song grows deep in side my soul
I know if God wants me to use it
The strivin's more important than the goal

And I think,
What would I do without my music
What would I do without my song
What would I do without my music
To make things right when ev'ry thing seems wrong

And as I lose my worries in my music
Dreams start rebuilding strong and high
And I know tho' I may not be winning
I'm a long long way from losin' if I try

And I think,
What would I do without my music
What would I do without my song
What would I do without my music
To make things right when ev'ry thing seems wrong
To give me hope, so I can carry on - carry on!
